EXCURSIONS Policies and Procedures

Links to Regulations: 98, 99, 100-102, 136, 168 (2) (g), 181, 183, 320, 323, 326-27 Links to quality areas, standards or elements: 1, 2.3, 4.1, 6, 7.1, 7.3

Rationale:

In supporting children to develop community awareness, cultural diversity and an understanding of our world the Centre values the provision of a wide range of experiences, including those in the outdoor learning environment. Activities outside of the Centre may be organised. Parents and guardians will be invited to attend excursions with their children where appropriate.

On walks, staff are aware of road safety rules and maintaining appropriate behaviour among the children to ensure their safety. Educators will use these experiences as a means to educate children about road safety rules and their implementation.

Strategies, Practices and Procedures:

- Information about these excursions will be provided to parents prior to the event.
- For excursions or activities that require payment, transport or the crossing of main roads, specific written consent will be required from parents or guardians.
- If the excursion is a regular outing, the parent authorisation is only required to be obtained once in a 12 month period (e.g. transition visits: walking to Balaklava Primary School, to the supermarket or around the block for fitness).
- If parents do not consent for their child to participate in the excursion a modified program may be offered at the Centre.

A Risk Assessment form will be completed by staff prior to the excursion and will:

- Identify and consider the risks that the excursion may pose to those involved and how the risks will be managed and minimised.
- Include details of the excursion including route, destination, any water hazards or risks associated with water-based activities, transport, staff: child ratio, activities to be undertaken, duration and items to be taken on the excursion.
- Following the Excursion review and reflect on the above details to plan any future improvements needed.

For an excursion that is a regular part of the program (e.g. walk around the block, walk to the supermarket or to Balaklava Primary School) only 1 risk assessment form will be completed annually.

For all excursions outside the Centre, child/staff ratios will be in accordance to the NQS staff: child ratios

**Childcare**

- Babies under 24 mths: 1:4 for low to moderate risk excursions
- 1:1 for high risk excursions
- Children 24 mths but less than 36 mths: first 8 children 1:8, For any additional children 1:10
- School age children: 1:11

**Pre-school** 1:10

For excursions when children are vertically grouped a risk assessment will be undertaken and child/staff ratio determined whilst maintaining or exceeding the child/staff ratios started above.

Details on the consent form will include:

- The child’s name
- The reason for the excursion
- General description of activity, the destination and activities to be undertaken
- Date and time of activity
- Expected time of departure and return – where applicable
- Cost per child (if applicable)
- Transport details
- Ratio of educators to children
- Ratio of staff members plus any other adults who will accompany and supervise children
- Parent’s signature
- Risk Assessment has been prepared and is available at the Centre
For all off-site excursions staff ensure the backpack includes:

- medications and copies of Medication/Health Care Plans for individual children and staff
- the Centre’s asthma kit along with other Basic First Aid Items
- the mobile phone
- List of children present
- Parent, Guardian and Centre contact details
- Nappies, wipes, tissues
